

42 Gallon Shelby Cobra Racing Cell

FUEL SAFE SPECIALTY APPLICATIONS (SA)

Fuel Safe's specialty applications division has developed a wide variety of drop-in solutions for many types of factory race platforms including vintage Lotus, Corvette and Camaro designs to our highly specialized C6 fuel cells found on the Pratt and Miller factory Corvettes. We offer a variety of application specific fill plates and collector systems depending on the model you choose. All specialty cells include an FIA-FT3 approved Pro Cell® bladder, full safety foam baffling, and a five-year manufacturer warranty.

FORMULA ROAD RACING BLADDERS

Designed around our most common wedge cell configuration, Fuel Safe's formula wedge cells offer a cost effective fuel cell for your vintage race cars including Van Diemens, BT29's, Formula Fords and Formula Vee's. All formula wedge bladders come with an FIA-FT3 approved bladder, full safety foam baffling and five-year manufacturer warranty.

For wedge cell drawings visit the formula/vintage section of our online store.
